

## **PHP developer**

### Job Description

Do you have a passion for creating software that impresses users beyond their expectations? Join a dynamic agile development team who do just that!

You will be joining a team who are responsible for creating an incredible user experience using the latest development techniques.

Our product has been developed from the ground up by our inhouse team and you have a chance to put your signature on it.

### **Skills & Requirements**

#### **About You**

You are proud of the products and features you have implemented. You love solving problems, working in an agile (XP) environment, are a fast learner and have a fantastic attention to detail. You communicate and work well with your peers and people outside your team.

You code competently in PHP, jQuery and MySQL. You love coding and make sensible and practical choices amongst multiple design solutions, in keeping with existing UI/UX.

#### **Skills needed**

We are expanding our development team and are looking for a passionate and creative PHP Developer to join our existing development team in Southport.

You will be required to make changes to our platform within our development environment as per the team's development timeline.

The ideal candidate will have experience in the following:

- PHP
- MySQL (MySQLi)
- jQuery
- RESTful API Development
- HTML/CSS
- Git
- CentOS

#### **Your team**

Smart, dynamic and inclusive. We learn from each other all the time. We make choices based on the merit and not position of the person who is suggesting it. We have a strong bond together which is based on the success of our product.

You will be working as part of a team of 6 other developers with supporting skillsets and reporting to our Strategic Systems Manager who is also a developer.

## **About Perfect Portal**

Perfect Portal helps Clients attract more conveyancing work and increase profits; affording them independence throughout each transaction.

The purpose-built conveyancing sales management system puts them in control of the conveyancing process by giving them visibility of activity including leads, quotes, referrer activity, and milestones for each transaction.

An interactive dashboard is at the heart of the end-to-end system. The conveyancing team has visibility of all transaction activity, while clients can check sections of the transaction that relate to them, and estate agents have the added ability to log transaction activity. Each party has a dedicated login portal, so they see only what relates to them. Automated activity notifications save time by replacing phone calls and emails about the status of a matter.

Users of Perfect Portal can generate and email quotes in just one minute; and allows Clients to follow-up leads at the click of a button, using customised email templates.

We also provide integrated solutions for our customers to be able to make the most of their online presence.

Perfect Portal is a part of the InfoTrack Group. InfoTrack's great success in the United Kingdom is only the starting point in our ambition to be the best provider of software and solutions in our market in the world.
